OPERATION, MAINTENANCE, & HEALTH AND SAFETY INSTRUCTIONS
MODEL: SAND BAG CARRIER

Maintenance

1. The Sand Bag Carrier should be inspected weekly for general condition with particular attention paid to:
 A – All weld points
 B – Any damaged/worn components
2. Damage or failure must be reported and rectified immediately prior to re-use of the attachment.
3. General surface rusting especially in the critical areas should be treated with proprietary inhibitors, primers and paint on a regular basis.
4. This product is certified for six (6) months from the date of manufacture after which it is the customer's responsibility to have the product re-tested at an approved testing facility or inspected and logged in a register by a competent person as advised by the HSE.

Health and Safety

1. The manager of the department or section where the attachment is to be used must be responsible for ensuring the operators are fully conversant with the attachment, its operation and maintenance.
2. Ensure both the truck and attachments are capable of handling the intended load and its contents.
3. The load must be spread equally over all 4 lifting points.
4. Do not shock load the attachment under any circumstances.
5. The safe working load must not be exceeded.
