

Troax storage box

Troax boxes are storage solutions suitable for accommodating hazardous materials and providing protection against theft. Their galvanised finish makes them appropriate for use anywhere. The boxes are easy to assemble. Constructed using UX 450 mesh panels, they can easily be tailored to any application. The hot-dip galvanised finish also makes the boxes suitable for outdoor use.

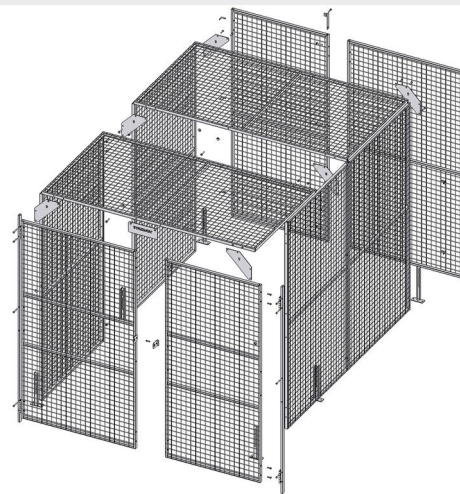

FACTS

Dimensions of standard boxes

Height (mm)	Width (mm)	Depth (mm)
2200	1200	1200
2200	2200	1200
